

CockroachDB Pricing

The cloud-native, distributed SQL database

CockroachDB Cloud

CockroachDB Bring your own cloud

Basic

Starts at \$0 / month

Get started free

For smaller, bursty workloads up to 30K RU/sec (~60 vCPUs).

- ✓ 50 million RUs and 10 GiB storage free per month
- ✓ On-demand compute and storage that scales to zero
- ✓ AWS and GCP multi-region support for select regions
- ✓ IP allowlist access control
- ✓ 99.99% availability
- ✓ Integration of vector data with transactional data
- ✓ Includes MCP, CLI and Agent Skills

Standard PREVIEW

2 vCPUs start at \$0.18 / hr

[Get started free](#)

For steady workloads at scale, up to 200 vCPUs.

- ✓ Provisioned compute with instant scaling up to 200 vCPUs, and on-demand storage
- ✓ AWS and GCP multi-region support for select regions
- ✓ Private connectivity
- ✓ Metrics and log export to DataDog
- ✓ 99.99% availability
- ✓ Integration of vector data with transactional data
- ✓ Includes MCP, CLI and Agent Skills
